

**RESOLUTION 87-2
(Revised 1989)**

CONCERNING THE RELAYING OF MESSAGES TO AMATEUR STATIONS

The IARU Administrative Council, Noordwijkerhout, April 1987,

- | | |
|-----------------------------|--|
| <u>recognising</u> | the problems caused by the handling by amateur stations of communications having inappropriate content, particularly with regard to business and commercial matters |
| <u>recognising</u> | the impact on other users of the crowded spectrum from unattended store-and-forward ("mailbox") stations, and further recognising that the problem of controlling the content of amateur radiocommunication is made more difficult by the availability of such stations, |
| <u>resolves</u> | that the Administrative Council affirms the action taken at its Buenos Aires meeting, in urging member societies to emphasize to their members the importance of adhering to the spirit and intentions of the ITU Radio Regulations, and of handling only that traffic which does conform; and |
| <u>further
resolves</u> | that member societies are hereby urged to acquaint their members as to the undesirable aspects of the uncontrolled proliferation of unattended store-and-forward ("mailbox") stations. |
